## SUPER KL<sup>®</sup> WITH SLIME FIGHTER™

Super KL with Slime Fighter is a premium anti-fouling coating that provides effective protection against barnacles, slime, algae and hydroids. It is recommended for boats that are used in high fouling salt or fresh water areas, or which remain in the water for prolonged periods between haul outs. It forms a smooth surface and can be applied over most hard and soft bottom paints. The fast dry formula of Super KL with Slime Fighter allows you to paint and launch your boat the same day.
